## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 3, change "a electrically" to - - an electrically - - for proper grammar.

### ***Allowable Subject Matter***

2. Claims 16-22 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited disclose a land grid array (LGA) on a carrier comprising a plurality of electrical connections, an electrically conductive exterior sash having a width and a height, at least one interior sash, and some other claimed elements. However, they do not disclose or suggest the LGA in combination having a plurality of electrical connections between the exterior and/or interior sash and array at selected electrical interconnections, and the exterior and/or interior sash is a voltage path for any of a plurality of other components on the carrier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bargain et al. and Neidich disclose related art.
